

Sun Protection Policy

Authorisation	DSCC Management Committee
Review Date	May 2021
Approved Date	22 June 2021
Next Review Date (Frequency)	May 2024 (3 years) or sooner as required.
Relevant Documents	Attachment 1: Sun Protection Permission and Agreement Form

AUTHORISATION

This policy was reviewed and adopted by the Dawson Street Child Care Co-operative (DSCC), at a committee meeting on the Approved Date defined above.

POLICY STATEMENT

Values

DSCC is committed to:

- promoting sun protection strategies for children, families, staff and visitors to minimise the harmful effects of over exposure to the sun's UV radiation
- ensuring that curriculum planning will minimise over exposure to the sun's UV radiation and also promote an awareness of sun protection and sun safe strategies
- providing information to children, staff, volunteers, parents/guardians and others at the service about the harmful effects of exposure to the sun's UV radiation.

Purpose

This policy will provide:

- guidelines to ensure children, staff, volunteers and others participating in Dawson Street Children's Co-Op (DSCC) programs and activities are well protected from overexposure to ultraviolet (UV) radiation from the sun
- information for parents/guardians, staff, volunteers and children attending DSCC regarding sun protection.

SCOPE

This policy applies to the Approved Provider, Person with Management or Control, Nominated Supervisor, Person in day to day Charge, educators, staff, students, volunteers, parents/guardians, children and others attending the programs and activities of DSCC.

This policy will apply whenever the sun's UV levels reach three or higher. Whenever this occurs a combination of sun protection measures are to be used for all outdoor activities.

In Victoria UV levels are usually three or higher from mid-August to the end of April. Please check the daily local sun protection times (refer to *Definitions*) to be sure you are using sun protection when it is required. Active outdoor play is encouraged throughout the day all year, provided appropriate sun protection measures are used when necessary.

BACKGROUND AND LEGISLATION

Background

Over exposure to the sun's UV radiation can cause sunburn, skin and eye damage and skin cancer. Australia has one of the highest rates of skin cancer in the world.

Children up to four years of age are particularly vulnerable to UV damage due to lower levels of melanin and a thinner stratum corneum (the outermost layer of skin). UV damage accumulated during childhood and adolescence is associated with an increased risk of skin cancer later in life.

A combination of sun protection measures (hats, clothing, sunscreen, shade and sunglasses) is recommended whenever UV levels are three or higher during daily sun protection times (refer to *Definitions*).

It is a requirement under the Occupational Health and Safety Act 2004 that employers provide a healthy and safe environment for all persons who access the service's facilities and/or programs.

Legislation that governs the operation of approved children's services is based on the health, safety and welfare of the children and requires that children are protected from hazards and harm.

Legislation and standards

Relevant legislation and standards include but are not limited to:

- *Child Wellbeing and Safety Act 2005* (Vic) (Part 2: Principles for Children)
- *Education and Care Services National Law Act 2010*: Section 167
- *Education and Care Services National Regulations 2011*: including Regulations 100, 101, 113, 114, 168(2)(a)(ii)
- *National Quality Standard*, Quality Area 2: Children's Health and Safety
 - Standard 2.3: Each child is protected
 - Element 2.3.2: Every reasonable precaution is taken to protect children from harm and any hazard likely to cause injury
- *Occupational Health and Safety Act 2004*

DEFINITIONS

The terms defined in this section relate specifically to this policy. For commonly used terms e.g. Approved Provider, Nominated Supervisor, Regulatory Authority etc. refer to the *General Definitions* section of this manual.

Clothing for sun protection: Clothing that is loose-fitting, made from cool, densely woven fabric and covers as much skin as possible: tops with elbow-length sleeves and, if possible, collars and knee-length or longer shorts and skirts. Singlet tops and shoestring tops/dresses do not provide adequate protection in the sun.

Daily sun protection times: Times when it is estimated that the sun's UV radiation will be three or higher. Information about the daily sun protection times is available in the weather section of the daily newspaper, on the SunSmart website at: www.sunsmart.com.au, at myuv.com.au, as a free SunSmart app and as a free widget that can be added to websites.

Shade: An area sheltered from direct and indirect sun, such as a large tree, canopy, verandah or artificial cover. Shade can be built, natural or temporary and can reduce overall exposure to the sun's UV by 75%. When combined with appropriate clothing, hats and sunscreen, children can be well protected from UV over exposure when outdoors. Research shows that preschool environments with trees, shrubbery, and broken ground not only provides better sun protection in outdoor play but also triggers more physical activity.

Sunhat: SunSmart recommends broad-brimmed, legionnaire or bucket-style hats that shade the face, neck and ears. Baseball caps and visors offer little protection to the cheeks, ears and neck, and are not recommended.

Sunglasses: Sunglasses are optional. If worn, it is recommended that glasses are a close fitting, wrap-around style that meet the Australian Standard 1067 (Sunglasses: Category 2, 3 or 4) and cover as much of the eye area as possible. Wearing a hat with a brim that shades the eyes can also reduce UV radiation to the eyes by 50%.

Sunscreen: SPF 30 (or higher) broad-spectrum, water-resistant sunscreen. Sunscreen should be reapplied every two hours, even when labelled 4 hours water resistance. Monitor the expiry date and store in a cool, dry place. From 3 years of age, children are encouraged to apply their own sunscreen under supervision of staff to help develop independent skills ready for school.

SunSmart: The name of the program conducted by Cancer Council to help prevent skin cancer: www.sunsmart.com.au

RESPONSIBILITIES

The Approved Provider and Person with Management or Control is responsible for:

- meeting the standards and requirements of the SunSmart early childhood program
- ensuring that this policy is up to date with current SunSmart recommendations:
www.sunsmart.com.au
- ensuring parents/guardians are informed about the *Sun Protection Policy* on enrolment, including the need to provide an appropriate sunhat and clothing for sun protection (refer to *Definitions*) for their child when attending the service
- providing a supply of sunscreen for use on all persons to whom this policy applies
- ensuring parents/guardians provide an authority for staff to apply sunscreen prior to their child commencing at the service (Attachment 1) and that this is stored with each child's enrolment record (refer to *General Definitions*)
- ensuring children wear appropriate sunhats, clothing for sun protection and sunscreen when attending the service
- providing appropriate spare sunhats for children and adults that will be laundered after each use
- ensuring there is adequate shade in the service grounds to protect children from over exposure to UV radiation (Regulation 114)
- ensuring that program planning includes the application of a combination of sun protection measures for outdoor activities during the times specified in the *Scope* of this policy
- ensuring that the availability of shade is considered in a risk assessment prior to conducting excursions and other outdoor events (Regulations 100, 101)
- ensuring that information on sun protection is incorporated into the educational program (refer to the SunSmart website)
- ensuring all staff, children and other participants at the service wear sunhats, clothing for sun protection and sunglasses (optional) when outside, apply sunscreen and seek shade during the times specified in the *Scope* of this policy
- ensuring all staff are aware of the special needs of infants. Babies under 12 months should not be exposed to direct sun. They should remain in full shade and always be well-protected through the use of hats and cool, covering clothing when outside. With parental consent small amounts of a suitable SPF30 (or higher) broad-spectrum water-resistant sunscreen may be applied to babies over 6 months
- reinforcing this policy by providing information on sun protection (available on the SunSmart website) to service users via newsletters, noticeboards, meetings and websites etc.

The Nominated Supervisor, Person in day to day charge and early childhood teachers are responsible for:

- ensuring parents/guardians are informed of the *Sun Protection Policy* on enrolment, including the need to provide an appropriate sunhat and clothing for sun protection (refer to *Definitions*) for their child when attending the service
- obtaining a parent's/guardian's authority for staff to apply sunscreen prior to their child commencing at the service (Attachment 1) and storing this with each child's enrolment record (refer to *General Definitions*)
- ensuring program planning includes the application of a combination of sun protection measures for outdoor activities during the times specified in the *Scope* of this policy
- ensuring educators and staff are aware of the special needs of infants. Babies under 12 months should not be exposed to direct sun. They should remain in full shade and always be well-protected through the use of hats and cool, covering clothing when outside. With parental consent small amounts of a suitable SPF30 (or higher) broad-spectrum water-resistant sunscreen may be applied to babies over 6 months.
- ensuring the sun protection times on the SunSmart website or the SunSmart app are accessed daily to assist with the implementation of this policy

- ensuring information on sun protection is incorporated into the educational program (refer to the SunSmart website)
- ensuring that the availability of shade is considered in a risk assessment prior to conducting excursions and other outdoor events (Regulations 100, 101).

All educators are responsible for:

- accessing the daily sun protection times on the SunSmart or MyUV websites or the SunSmart app to assist with the implementation of this policy
- wearing sunhats, clothing for sun protection (refer to *Definitions*) and sunglasses (optional) when outside, applying sunscreen and seeking shade during the times specified in the *Scope* of this policy
- ensuring each child, and any other participant at the service, wears an appropriate sunhat, clothing for sun protection and sunscreen for all outdoor activities during the times specified in the *Scope* of this policy
- keeping babies under 12 months out of direct sun whenever UV levels are three or higher
- checking that all sunhats brought to the service meet the SunSmart recommendation for adequate protection, are named and stored individually
- ensuring spare sunhats are laundered after each use
- applying sunscreen (refer to *Definitions*) to children's exposed skin – except in cases where parents/guardians have not given authority. Where possible this should be done 20 minutes before going outdoors. Children, where appropriate, will be encouraged to apply sunscreen with the assistance of an educator (sunscreen is to be reapplied every two hours)
- storing sunscreen in a cool place and monitoring the expiry date – including for sunscreen supplied by parents/guardians
- ensuring that children without appropriate sunhats or clothing for sun protection play in the shade or in a suitable area protected from the sun
- encouraging children to seek shade when playing outside and utilise shaded areas for outdoor equipment that is not fixed during the times specified in the *Scope* of this policy
- encouraging children to wear sunhats when travelling to and from the service
- ensuring that sun protection strategies are a priority when planning excursions
- co-operating with their employer with respect to any action taken by the employer to comply with the *Occupational Health and Safety Act 2004*.

Parents/guardians are responsible for:

- providing a named, SunSmart approved sunhat (refer to *Definitions*) for their child's use at the service
- applying sunscreen to their child before the commencement of each session during the times specified in the *Scope* of this policy
- providing written authority for staff to apply sunscreen to their child
- providing, at their own expense, an alternative sunscreen to be left at the service if their child has a particular sensitivity to the sunscreen provided by the service
- wearing a sunhat, clothing for sun protection (refer to *Definitions*) and sunglasses (optional) when outside at the service, applying sunscreen and seeking shade during the times specified in the *Scope* of this policy.
- If their child has a particular sensitivity to the sunscreen provided by the centre, provide, at their own expense, an alternative sunscreen, to be left at the Centre for use under staff direction.

Volunteers and students, while at the service, are responsible for following this policy and its procedures.

EVALUATION

In order to assess whether the values and purposes of the policy have been achieved, the Approved Provider and Person with Management or Control will:

- regularly seek feedback from educators, staff, parents/guardians, children, management and all affected by the policy regarding its effectiveness
- monitor the implementation, compliance, complaints and incidents in relation to this policy
- keep the policy up to date with current legislation, research, policy and best practice
- revise the policy and procedures as part of the service’s policy review cycle, or as required
- notify parents/guardians at least 14 days before making any change to this policy or its procedures.

RESOURCES AND SUPPORT

The Cancer Council Victoria has a SunSmart accreditation program for early childhood services. Call 9514 6100 or check on www.sunsmart.com.au for more details.

Sun protection times throughout Victoria can be found in the weather section of your daily newspaper or visit <http://www.bom.gov.au/announcements/uv/> . When UV Index levels are low, it will say, “” sun protection is not required.”

Date Reviewed	Details of Changes (if any)	Date of Next Review
May 2021	Updates based on ELAA template. Added: - Families to provide own sunscreen if are sensitive to centre’s sunscreen. - Spare hats are laundered after each use. - Reviewed and added Attachment 1.	May 2024
May 2017	Minor updates	April 2020
December 2016	Policy reviewed by SunSmart Schools & Early Childhood Program Coordinator	April 2017
October 2015	Included definitions of ‘policy period’ and ‘peak UV period’ as per SunSmart policy. Changed all references to sunscreen requirement to 30+ to ensure consistency.	April 2017

April 2014	Information included in relation to extreme heat policy	April 2017
July 2012	Updates to relevant legislation and align to sample SunSmart Policy.	July 2014
May 2010	Reference to new Children's Services Regulations	May 2012
May 2009	Removal of reference to Terms 1 and 4 – replaced with September to April	May 2010
May 2007	This update incorporated clarification as to when sun hats are to be worn ie Term 1 & Term 4. Initially developed using KPV-Sun Protection Policy as a base 1	May 2010

ACKNOWLEDGEMENTS

This policy has been reviewed and approved by Cancer Council Victoria on July 2019.

Sun protection agreement and permission form

I understand Dawson St Children's Co-operative is a registered member of the SunSmart Early Childhood Program and follows SunSmart and Cancer Council Victoria guidelines to use a combination of sun protection measures (clothing, sunscreen, a hat, shade, and if practical, sunglasses) whenever UV levels reach 3 or higher. In Victoria UV levels are typically three and above from mid-August to the end of April.

I agree to support the service's SunSmart membership to help minimise my child's potential risk of skin and eye damage and skin cancer by doing the following:

(Please tick all that apply)

Dress my child in cool clothing that covers as much skin as possible e.g. tops that cover the shoulders, arms and chest, has higher necklines or collars, and long shorts and skirts.

I understand that singlet tops or shoestring dresses do not provide adequate sun protection and are best layered with a shirt or t-shirt.

Remind my child to bring and wear a sun-protective hat that shades the face, neck and ears (e.g. wide-brimmed, bucket or legionnaire hat).

I understand that baseball / peak style caps do not provide adequate sun protection and are not appropriate for outdoor play and activities.

Give permission for educators to apply SPF50+ broad-spectrum sunscreen supplied by the centre to all exposed parts of my child's skin including their face, neck, ears, arms and legs.

If my child is sensitive/ is reacting to the sunscreen provided, I have provided (labelled with child's name) the following brand/type of sunscreen to be use and to be applied to my child:

(insert name of sunscreen provided)

Name of child's: _____

Parent's /Guardian's full name: _____

Signature: _____ Date: _____

(this authorisation is valid for 12 months from date printed above)
